Professionalism and Ethics

Acquiring a solid foundation in research skills and ethics to develop as a professional are among the many goals of graduate education and postdoctoral training. Much of this development is provided through faculty mentorship and guidance. In addition, GradPathways, the Office of Research, professional societies, and individual departments provide workshops, trainings, and symposia in these areas.

WORKSHOPS

**Responsible Conduct of Research 2019/2020**
Mondays, Dates vary | 12:00 pm – 1:00 pm | Genome Ctr 1005 (Davis) & Educ. Bldg Rm 1204 LH (Sac)
Learn More and Register

IRB OUTREACH AND TRAINING
Learn more about the IRB requirements.
IRB training is required for research involving human subjects.

LIBRARY RESOURCES
Learn more about Drop-In Classes, Workshops, and Tours
The library has a variety of free resources that support your research and teaching including help with data management, materials throughout the UC system, GIS, special collections, research consultations, and more.

STATISTICAL CONSULTING AND COLLABORATIVE RESEARCH
Meet with a Statistical Consultant
Services include providing advice to individual researchers in preparing statistics-related sections of proposals for extramural funding, assisting researchers on the design of prospective experiments or studies, conducting or giving advice concerning statistical data analysis, and planning or executing statistically motivated computation.
