

Professionalism and Ethics

Acquiring a solid foundation in research skills and ethics to develop as a professional are among the many goals of graduate education and postdoctoral training. Much of this development is provided through faculty mentorship and guidance. In addition, GradPathways, the Office of Research, professional societies, and individual departments provide workshops, trainings, and symposia in these areas.

WORKSHOPS & EVENTS

Responsible Conduct of Research: Conflict of Interest

Monday, April 1 | 12:00-1:00pm | Genome Center Rm 1005 & (Sacramento Campus) Education Building Rm 1204 LH
[Learn More and Register](#)

Responsible Conduct of Research: Peer Review

Monday, April 15 | 12:00-1:00pm | Genome Center Rm 1005 & (Sacramento Campus) Education Building Rm 1204 LH
[Learn More and Register](#)

Responsible Conduct of Research: Export Control

Monday, April 29 | 12:00-1:00pm | Genome Center Rm 1005 & (Sacramento Campus) Education Building Rm 1204 LH
[Learn More and Register](#)

Responsible Conduct of Research: Contemporary Ethical Issues in Biomedical Research

Monday, May 6 | 12:00-1:00pm | Genome Center Rm 1005 & (Sacramento Campus) Education Building Rm 1204 LH
[Learn More and Register](#)

AAAS Grant Writing and Career Development Online Workshops (Free)

[Learn more about the AAAS Professional Development.](#)

IRB OUTREACH AND TRAINING

[Learn more about the IRB requirements.](#)

IRB training is required for research involving human subjects.

LIBRARY RESOURCES

[Learn more about Drop-In Classes, Workshops, and Tours](#)

The library has a variety of free resources that support your research and teaching including help with data management, materials throughout the UC system, GIS, special collections, research consultations, and more.

DATA SCIENCE INITIATIVE OFFICE HOURS

[The Data Science Initiative](#) focuses on making qualitatively new research possible, accelerating data-driven exploration, and training researchers throughout their career to be skilled at working with data at all stages of the analysis pipeline. The DSI Academic Coordinator can provide resources for learning and applying various topics in data science, information about the DSI and related data science efforts at the university, and help getting started with R for reproducible research.

STATISTICAL CONSULTING AND COLLABORATIVE RESEARCH

[Meet with a Statistical Consultant](#)

Services include providing advice to individual researchers in preparing statistics-related sections of proposals for extramural funding, assisting researchers on the design of prospective experiments or studies, conducting or giving advice concerning statistical data analysis, and planning or executing statistically motivated computation.
