The Betty Irene Moore School of Nursing working as a member of a health care team graduates to deliver primary care—with an master's degree nurse practitioner and phenity college and prelicensure levels. The graduates are well prepared for health care level. Master's degree leadership program faculty and researchers at the university health care, health policy, as well as nurse Science and Health Care Leadership. The Doctor of Philosophy in Nursing in Sacramento and the San Francisco school's research in these five focus. The youngest to the oldest. Through the of Nursing emphasize health for all, from nursing and Ph.D. assistant studies, M.S. leadership, M.S.N. nursing and Ph.D.

Research and education at the School of Nursing emphasize health for all, from the youngest to the oldest. Through the school's research in these five focus areas—care coordination, health technology, pain management, healthy systems and healthy people—faculty and leaders seek solutions that place the individual and family at the center of care.

The Doctor of Philosophy in Nursing Science and Health Care Leadership program prepares graduates as leaders in health care, health policy, as well as nurse faculty and researchers at the university level. Master's degree leadership program graduates are well prepared for health care leadership roles in a variety of organizations and as nurse faculty at the community college and prelicensure levels. The master's degree nurse practitioner and physician assistant studies programs prepare graduates to deliver primary care—with an emphasis on underserved populations and working as a member of a health care team.

The Betty Irene Moore School of Nursing is part of UC Davis Health System, an integrated, academic health system encompassing UC Davis School of Medicine, the 619-bed, acute-care hospital and clinical services of UC Davis Medical Center, and the 800-member physician group known as the UC Davis Medical Group.

GRADUATE SCHOOL OF MANAGEMENT
(530) 752-7658
gsm.ucdavis.edu
M.B.A., M.P.Ac., M.S.
The Graduate School of Management's transformative student experience focuses on the management, analytical and critical thinking skills graduates need to become more effective managers and confident business leaders who can drive change and results. Students work closely with faculty, business leaders and their peers on challenging team projects for corporate sponsors. They can tap a powerful, global alumni network with UC Davis graduates in prominent roles as senior executives, managers and entrepreneurs.

Students also benefit from the interdisciplinary strengths and rich offerings of one of the world's top research universities—and the school's prime locations in Northern California, giving them access to leading financial, energy and consumer companies, Fortune 500 firms, high-tech startups in Silicon Valley, cutting-edge green technology and biotech leaders, top venture capitalists, and the nation's wine and agricultural centers.

The UC Davis M.B.A. program merges teaching excellence and pioneering research to prepare globally aware, agile leaders who are committed to making a positive impact on the world. The values and principles of social and environmental responsibility and diversity are woven into the very fabric of the school's tight-knit community. Led by internationally recognized faculty, the small class sizes foster camaraderie and close collaboration.

The school offers a full-time M.B.A. program in Davis, and a part-time M.B.A. program in Sacramento and the San Francisco Bay Area. A bold and innovative curriculum integrates globalization, responsible business ethics and sustainability.

The school continues to gain greater national and international visibility. U.S. News & World Report most recently ranked the school's full-time M.B.A. program among the top 10 percent in the nation—the 20th consecutive year among the best—and the part-time M.B.A. program is among the top 9 percent in the U.S. for the fourth consecutive year.

The school's nine-month Master of Professional Accountancy degree program meets the rising demand for CPA professionals throughout industry. The degree has three distinguishing features: (1) meeting California's requirement for five years of post-secondary education at an accredited college or university), (2) understanding professional responsibilities and ethics, and (3) learning international accounting standards that apply to publicly traded firms, and U.S. standards that apply to many smaller corporations and businesses. Classes are held at the UC Davis main campus.

Businesses today seek new and creative strategies to utilize data. An organization's store of "big data" is considered its most critical economic asset. Blended managers who can manage people, resources and information assets and make data-driven decisions are highly valuable. To meet this growing need, the school has launched a 10-month Master of Science in Business Analytics degree program. The objectives of the program are to (1) develop business leaders proficient in analytics by providing educational and research opportunities to students, (2) prepare students to use data and analysis to identify business opportunities and create business value, and (3) advance the science and practice of business analytics by bringing together faculty, students, and companies to promote research, teaching and outreach. Classes will be held at the School's Bay Area campus in San Ramon.
PROFESSIONAL DEGREE PROGRAMS

SCHOOL OF LAW
(530) 752-0243
law.ucdavis.edu

UC Davis School of Law ranks among the country’s leading law schools. The school offers a three-year, full-time program leading to the Juris Doctor, as well as programs for LL.M. and combined degrees. Founded in 1962, the school is accredited by the American Bar Association and is a member of the Association of American Law Schools. Areas of study include business law, criminal law, environmental law, health care law and bioethics, human rights and social justice law, intellectual property law, international law, and public interest law. Certificate programs are offered in intellectual property law, public service law, environmental law, and pro bono service. Students have the opportunity to work alongside top faculty members and attorneys representing real clients through this outstanding clinical, legal education program. Students also can earn academic credit for externship work in a wide range of settings including but not limited to environmental law, human rights, criminal defense and prosecution, labor law, tax law, and juvenile law, and with state and federal judges. The school is committed to maintaining a supportive learning environment with a small student body, small classes and outstanding faculty-to-student ratios. The School of Law building, Martin Luther King Jr Hall, was recently expanded and renovated. New features include an appellate courtroom, state-of-the-art classrooms and reading rooms. Every law student is given a key to the building, allowing around-the-clock access to King Hall.

SCHOOL OF MEDICINE
(916) 734-4800
ucdmc.ucdavis.edu/medschool
M.P.H., M.S., M.D./Ph.D., M.D./M.P.H., M.D./M.B.A.

The UC Davis School of Medicine focuses on training the next generation of health care leaders who can work as members of interprofessional teams to advance health for all. The school offers multiple degree programs and trains students in a highly diverse academic setting that includes state-of-the-art education and research facilities. It ranks among the nation’s best for research and primary care training, and offers a culturally and socially relevant medical education—with an emphasis on improving health in rural and other underserved communities. Among its unique education tracks are an accelerated, three-year M.D. curriculum, and one dedicated to building the next generation of physicians committed to advancing Latino health (Prep Médico). The school's Programs in Medical Education, Rural PRIME and San Joaquin Valley PRIME, are training future physicians for the unique health care needs in Northern and Central California. UC Davis’ medical degree program may be combined with training for a master’s degree in public health, business administration or health informatics. There is also a dual track for those interested in doctoral degrees in a broad range of disciplines that concentrate on high-impact research to transform health. The school is well known for its use of innovative technologies, such as telehealth, and virtual and distance learning, to create a learning environment that further encourages team science and clinical care. Along with being a leader in moving medical discoveries from the laboratory to the patients who need them, UC Davis School of Medicine is committed to fostering lifelong learning among its graduates. The school is part of UC Davis Health System, an integrated, academic health system encompassing the 619-bed, acute-care hospital and clinical services of UC Davis Medical Center, an 800-member physician practice entity known as UC Davis Medical Group, and the Betty Irene Moore School of Nursing.

SCHOOL OF VETERINARY MEDICINE
(530) 752-1383
vetmed.ucdavis.edu
D.V.M., M.P.V.M., M.S., Ph.D., M.P.H.

The School of Veterinary Medicine, ranked No. 1 in the world and the nation, is the only school in the UC system that offers the four-year Doctor of Veterinary Medicine degree program. Faculty members educate future veterinarians and veterinary scientists to lead veterinary medicine and address societal needs related to animal, human and environmental health in California and around the world.

The D.V.M. curriculum provides students with a comparative approach centered on body systems rather than disciplines—while emphasizing critical thinking, problem-solving, and self-directed learning to maximize their opportunities for lifelong success.
