

**Biological Systems Engineering**  
**Compensation Plan for Graduate Student Researchers**

The Graduate program in Biological Systems Engineering is recognized as one of the top programs of its kind in the country, offering Integrated BS/MS, MS, MEng, PhD, and DEng degrees. The program recognizes the need to maintain competitive compensation packages for our graduate students within the boundaries of financial resources and those of agencies that fund our research programs. In order to attract the very best students, the program faculty has unanimously approved the following compensation plan for all students starting 2016 Fall quarter<sup>1</sup>:

Students holding a bachelor's degree only	Step II
Students holding master degree in engineering <sup>2</sup>	Step III
Students advanced to candidacy for their doctoral degree	Step IV

Respectfully submitted,

Bryan M Jenkins

Date: May 25, 2016

Prasant Mohapatra

<sup>1</sup> Approved on March 30, 2016.

<sup>2</sup> Students who enter PhD/DEng program directly after the bachelor's degree will move to Step III GSR upon receiving MS degree, if they choose to obtain MS on the way to the doctoral degree.
