Re: Economics Department GSR Compensation Plan

Justification

The graduate program in Economics is competitive with other outstanding graduate programs in the nation. To offer a competitive stipend to our students we propose the following compensation plan. This will also bring compensation of our GSRs in line with that of teaching appointments, which is the main alternative funding for our graduate students.

Description: All Graduate Students

Step: V (up to 46.9% during the academic year; up to 100% in summer)

Sincerely,

---

Ann Stevens, Department Chair
