 Office of Graduate Studies

Re: Hydrologic Sciences Graduate Group Compensation Plan

Dear Dean Delplanque,

The Hydrologic Sciences Graduate Group is committed to supporting its current students and attracting the very best new students into our program. In accordance with the new policies on graduate student compensation set forth by the Office of Graduate Studies, and in light of the recently released cost of living estimates made by the UC Davis Financial Aid Office, the Hydrologic Sciences Graduate Group proposes the following plan for GSR appointments for students affiliated with the group:

MS and PhD students who have not advanced to candidacy:

48% GSR III, Academic year	\$18,385.92
100% GSR III, Summer	\$12,768.00
Total	\$31,153.92

PhD students who have advanced to candidacy:

48% GSR IV, Academic year	\$19,858.68
100% GSR IV, Summer	\$13,790.76
Total	\$33,649.43

Sincerely,

Thomas Harter, Chair
 Hydrologic Sciences Graduate Group
